Item Type:

- Pleated Cloth Mask
- Curved or Rounded Cloth Mask
- Other: _____

Additional Notes: *(recipient info, special details, messages of support)*

Use of Cloth Masks:

In settings where facemasks are not available, HCP might use homemade masks (e.g., bandana, scarf) for care of patients with COVID-19 as a last resort. However, homemade masks are not considered PPE, since their capability to protect HCP is unknown. Caution should be exercised when considering this option. Homemade masks should ideally be used in combination with a face shield that covers the entire front (that extends to the chin or below) and sides of the face. [CDC.gov]
